

# Dispergator LS

## Fully automatic skid mounted slurry preparation of lignosulfonate powder

### Technological benefits

- Solids up to 55 % d.s.
- No dispersing agent needed
- Plug flow shearing
- Fully flexible system
- Improvement of sizing results
- Supports penetration of starch glue into paper
- SCT Values improvement

### Technical benefits

- Requiring minimum operating space
- Highest production rate
- Online solids measurement
- Fully automated
- Low maintenance demand
- Remote monitoring
- Online service via modem

## Best Value Guaranteed

Process equipment - project engineering - service - chemicals
